

Federal Aviation Administration

Memorandum

Date: July 16, 2020

To: Mitch Herrick, Russ Bassett

From: David Borcalli, Air Traffic Manager (A), San Diego Lindbergh Airport Traffic Control Tower

Subject: Lindbergh Tower Slatwall Console

Mr. Herrick,

I would like to express my sincere appreciation for the professional manor your team displayed during the design, quality control, and installation of the slatwall consoles at San Diego Lindbergh Tower.

The full scale mockup concept your company used at your Whittier facility during the design process proved effective, and ultimately delivered a superior product.

My team proposed several modifications and/or adjustments to the design during installation that your team embraced with a can-do attitude. Russ Bassett team completed the project with minimal impact to air traffic operations, on-time, and within budget.

Please accept my gratitude, and thank you for an excellent concept to installation experience.

Sincerely,

David Borcalli
