

CHINA CONTROL AIRSPACE SURVEILLANCE CENTER

Air Traffic Control Specialist Tony D Martin | Tony.d.martin@navy.mil

June 10, 2020

To Whom It May Concern:

It is my pleasure to write this letter recommending the services of The Russ Basset Corporation for their expertise in Air Traffic Control consoles and equipment.

From the moment we began working with Russ Bassett, they were very upfront and open. We were given a tour of their manufacturing factory, from the design center to the research and development lab. The staff was very knowledgeable and friendly.

As the supervisor in China Control, I had the privilege of working one on one with their Director of Air Traffic Control Consoles, Mitch Harrick, a former air traffic controller himself. He was extremely knowledgeable about things that can make an air traffic controllers life just a little easier. His recommendations and designs made our control room not only efficient but stylish as well.

In conclusion, I would highly recommend The Russ Basset Corporation. A quality product with terrific employees, The Russ Basset Corporation would be an extremely beneficial way to complete any control room. Any further questions you can contact me be by e-mail or telephone anytime.

Sincerely,

Air Traffic Control Specialist Tony D Martin
