Meg Grimmis
Sales Executive
Russ Bassett

Dear Meg,

We would like to express our appreciation for the hard work and commitment in providing a quality product. We have had our furniture in place for 6 weeks now and could not be happier with the experience. The thought and effort that goes into a project like this is extensive and when the result is this good it makes it all worthwhile. Our IT department is very impressed by the usability of the technology placement and the 911 staff is very comfortable in the new surroundings.

Sincerely,

Todd Baldwin
