RE: Russ Bassett PSAP Floor Design and Consoles

Dear Mr. Fink,

On behalf of South Sound 911 Communications Center, I want to recognize Russ Bassett who has been of primary support for the development and build out of our Communication Floor and furniture for our new Public Safety Communications Center. This \$59 million dollar critical infrastructure project houses and provides for emergency and public safety communications for both police and fire operations for Pierce County, Washington.

Matt Gawin and the entire Russ Bassett staff provided significant input and assistance in the overall design and development related to the Communication Center floor. In addition, their production and installation schedules were completed as established, providing us with exceptional furniture of the highest quality. This along with the completed on site work by their staff, made this Communications Center floor a showpiece of the new facility.

Russ Bassett has performed superbly on our project and has been a joy to work with. They brought knowledge, experience, integrity and a proven record of accomplishment to our project. Their assistance assured we achieved our goals related to the project from both a budget and functionality perspective. They contributed significantly to creating a state of the art PSAP that will support the citizens and public safety community for years to come.

It has been a pleasure to work with Matt and the Russ Bassett team, their participation has contributed to our projects amazing outcome. I cannot thank them enough for all their help and support during our project. I highly recommend them for any future design and development related to Communications Centers or Public Safety Buildings.

Sincerely,

Mark Mears
Deputy Director of Operations
South Sound 911
